Re: In the Matter of Reporting Requirements for U.S. Providers of  
International Telecommunications Services, IB Docket No. 04-112

Dear Ms. Dortch:

On April 14, 2005 Mary Hoberman, Jim Talbot, and I of AT&T met with David Krech, Linda Blake, John Copes, Joanne Ekblad, Cathy Hsu, Susan O'Connell, Peggy Reitzel, Mark Uretsky, and Irene Wu of the International Bureau, and Jim Lande of the Wireline Competition Bureau to discuss issues in this proceeding.

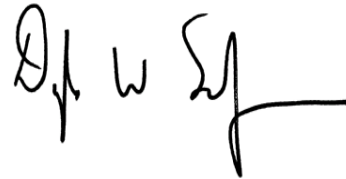

We briefly reviewed AT&T's position in this docket, which has changed in some respects since AT&T filed its comments and reply comments. Initially, AT&T supported preserving the Section 43.61 and 43.82 reports, but also emphasized that the reports should be significantly streamlined and that proposals in the NPRM for new and more detailed reporting requirements should be removed. However, in light of the significant burdens these reports place on US international carriers, the highly competitive nature of the US international market, and the increased liberalization of foreign markets, AT&T now believes that the reporting requirements of Sections 43.61 and 43.82 of the Commission's rules should be eliminated.

In this meeting we also addressed a set of questions provided by Bureau staff. These questions covered a wide range of issues regarding the reporting of revenues, minutes, settlement payments, and circuit quantities. The discussion highlighted some of the inherent difficulties in tracking today's dynamic international marketplace under any regulatory reporting regime.
